This section provides resources to help people study the laws on taxation. It:

1. Explains common methods of tax fraud perpetrated by companies, financial institutions, employers, private individuals and public servants and is intended to help prevent you from being injured by them; 2. Provides information intended to facilitate an informed choice about whether one wishes to engage in voluntary, avoidable, [excise taxable activities](#); 3. Describes legitimate options that a sovereign American can use to lawfully avoid (but not unlawfully "evade") [excise taxable activities or franchises](#) and "domicile" or "residence" in the forum state. To get started, please read our free publication to the left entitled [The Great IRS Hoax](#). Then, please visit our [Sovereignty Forms and Instructions Online](#) area to learn how to begin to apply what you learn here to the process of preventing tax fraud by defending your lawful and correct status. If you want to know MOST of the government's tax litigation tactics, you can refer to the [DOJ Tax Division Criminal Tax Manual](#). Note that we don't intend to encourage or advise any specific course of action to any third party, but simply to provide educational materials that will facilitate a FULLY INFORMED CHOICE on your part based on your own research and reading of [reasonable sources of belief](#) (OFFSITE LINK). The reader is also advised that these materials should not be used or applied unless he/she meets the criteria specified in the [Disclaimer](#) page for the "Intended/Authorized Audience For This Website" (section 2) and consents unconditionally to abide by the Copyright/Software/User License appearing therein.

- [Elton Silkman](#)-Mr. is a defendant represented by Larry BeCraft in a tax evasion case in Rapid City, S.D., in the summer of 1997. The IRS sent him a "naked" notice of deficiency for the first 5 years of the 1980s in early 1991, just before Elton sold his farm. When the IRS could not levy any property to satisfy the claimed taxes, Silkman was indicted. This appeal is very important because many people have "naked assessments." Here is how the  [Government responded](#) to his brief. The Silkman reversal is found at [FindLaw](#).

didn't owe income tax. Stopped filing. Was criminally prosecuted on two counts for "Willful Failure to File" by the IRS. Acquitted! Larry BeCraft defended him.

- [Interview](#)
- [U.S. v. Troescher](#): Article from the Spotlight announcing U.S. v Troescher, No. 95-55609, a case in which the Ninth Circuit Court of Appeals agreed with Mr. Troescher's Fifth Amendment defense against producing books and records, stating clearly that there was no "Tax Crime Exception" to the Fifth Amendment -- a severe blow to IRS "tax crime" prosecutions. Court's findings also posted.
- [Dr. Phil Roberts](#). Refused to submit tax returns for two years to preserve his Fifth Amendment rights not to testify against himself. Trial held in 8th Circuit court, Arkansas, and prosecuted by SIX government attorneys. He was not allowed to present witnesses or evidence or appear at trial and was railroaded into either confessing or going to jail. Eventually, arraigned and sentenced to 3.5 years in federal prison for a misdemeanor violation of the tax code (26 U.S.C. 7203, "Willful Failure to File a Tax Return"), and became another one of this nation's political "tax" prisoners. Don't kid yourself, America is NOT a free country. This should not be allowed to happen, but is an obvious scare tactic by the government to keep people filing. The [trial transcript](#) is invaluable in building a good defense, and so is the [DOJ Criminal Tax Manual](#) shown above, which appears to have been used by the prosecuting U.S. attorneys.
- [Phil Marsh](#). Phil and Marlene Marsh started "untaxing" people since 1990 and developed an organization called the Pilot Connection. He put on quite a presentation in the course of educating his clients. For better or worse, tens of thousands of people across the fifty states owe their involvement in the Tax Movement to Phil and his wife who are both now in prison. Just recently attorney Bill Cohan managed to get portions of their convictions reversed. This case is worth reading to gain some understanding of what Phil and his organization were up to and perhaps what mistakes were made, if any.
- [EEOC v. Information Systems Consulting](#)-A case prosecuted by the Department of Justice against an employer in Texas who refused to hire someone who would not provide their social security number. The citizen won! WARNING: This is a LARGE FILE (over 500K) and takes a long time to download!
